

Science – Leanne Michie

Leanne Michie is the Curriculum Area Leader for Science at a large comprehensive school graded good at their recent inspection. Leanne's leadership increase the science results in this school by 30% across all courses and abilities, taking the department from one of the lowest achieving to one of the highest. She has also helped to raise the profile of science in the school and wider community, producing links with industry, primary schools and colleges. Leanne is now the subject network lead for ELTSA and is working with the Science Learning Partnership to promote collaboration across the Alliance.

As an SLE Leanne can support schools in:

- Developing a curriculum to suit individual school needs, allowing progression through all key stages
- Effective use of diagnostic data to develop intervention strategies across all key stages
- Developing a CPD programme specific to the needs of a Science department.
- Developing a thriving ethos around Science helping to develop the subject and engagement.
